PREFACE

The 1986/87 Distance Education Course catalogue represents an update of the 1985/86 version which was sent to you last year.

While there is not unanimity concerning a definition of distance education, the courses listed have been restricted to those for which there is geographic separation between the instructor primarily responsible for delivering the course and the student.

The course listing provided in this year's catalogue is based on information provided from the institutions that are listed in the catalogue. Questions concerning any institution's listings should be directed to the contact person for that institution named in the catalogue.

Keyano and Medicine Hat Colleges and the Banff Centre for Continuing Education have indicated that they will not be offering any distance education courses during the 1986/87 academic year.

Your comments and suggestions for improving this catalogue are welcome.
